Elision

Elision, is one of the leading providers of Electronic Data Capture services to UK business. It has a blue-chip client list, and has acted for AT&T, Barclays Bank, Easyjet and The Land Registry among others. Elision chose Rotherham as the base for the next phase of its expansion in summer 2004.

"We needed to be closer to our growing client base. South Yorkshire is ideally placed to help us serve the eastern side of the country, being close to the A1, M1 and M62 and well positioned to serve the north Midlands, Yorkshire and Lancashire.

"We received excellent support, both in terms of looking for the most suitable premises and in attracting the level of grant that we need to support our growth."

Peter Gawen, Sales and Marketing Director
