Testimonials

Materialise

This Belgian company specialises in rapid-prototyping, its moulds being used in producing goods ranging from delicate scalpels to bumpers for luxury sports cars. It launched its manufacturing HQ in Rotherham in 1999.

"We have found the right place for our first UK operation. Now we are making an impact on UK and mainland European markets."

Fried Vancaeren, Group Managing Director

"Without the help from RiDO, Yorkshire Forward and their partners, we would have added weeks to our lead times, making it impossible to meet our deadlines."

UK Managing Director, Phil Kilburn
