Rose Plastic

This is the UK arm of Germany's Rose Plastic, a leader in the field of specialised plastic packaging for the precision cutting tool and engineering industries. It chose Rotherham for its UK HQ and hasn't looked back.

"Our experience was made easier, thanks to RiDO. Much is owed to them for their help in seeking out suitable premises from which to operate. With RiDO's local knowledge and contacts, and Rotherham's excellent modern premises, we found exactly what we wanted. Finding sites and premises here is a lot more hassle-free than in many other places I hear about."

Roger Green, UK Managing Director
