Xpress Ordering

Background

Xpress Ordering has benefited from a **funding** package and a **range of support services**. These have allowed the company to put the necessary infrastructure in place, in order to develop and trial software and bring it to market.

The appointment of a **business mentor** was invaluable; providing the small company with the expertise needed to drive the business forward and tackle areas such as recruitment.

The Support

"We knew we had a great idea, but didn't know whether we would be able to run a business. It was difficult to know where to begin but thanks the team at Century Business Centre we have managed to find our way through the maze and are optimistic about the future. The environment here is great and allows us to present the right image to potential clients."

Kevin Briggs, Managing Director
